

Navigate360 Panic Button Solution

PRIORITIZE EMPLOYEE SAFETY WITH IMMEDIATE ACCESS
TO FIRST RESPONDERS & BUILDING SECURITY PERSONNEL

Navigate**360**

Building safer tomorrows.

Workplace Safety is a Top Priority

Providing a safe and secure working environment whether from natural disasters or for workplace violence response is a priority for companies, regardless of size.

Weather data suggests that natural disasters are on the rise, as is violence in the workplace. According to the National Centers for Environmental Information (NCEI), 2020 was the sixth consecutive year in which 10 or more climate and weather events that cost \$1 billion or more impacted the United States. From 2018 to 2020, there were 50 such events that, together, caused a total of \$237.2 billion in damage.

Beyond natural disasters, incidents of violence are also trending upward. Nearly 400,000 aggravated assaults occur in the workplace each year and assaults and threats of physical violence make up a large portion of the workplace violence incidents recorded in the United States.

In the years between 2009 and 2020, horrific scenes of mass shootings have haunted the nation's collective conscience. Each breaking news story floods the nation with grief and anger at this senseless, preventable violence. When workplace violence is categorized by trade, the healthcare industry accounts for a substantial number of the total incidents reported.

These alarming statistics leave employers struggling to create more effective policies and communication pathways and establish working environments that will keep employees and visitors safe, reduce employee turnover, prevent medical care indemnity and reduce disability and absenteeism.

Achieve Workplace Safety & Security

- + Discreet and easy activation
- + Locked screen activation from mobile devices

The Right Information to the Right People

- + Send lifesaving communications and alerts to local Public Safety Answering Points (PSAPs)
- + Activate Windows computers with a camera-enabled option that will live-stream video and/or sound to first responders

Create a culture of safety within the workplace with Navigate360's panic button solution from 911Cellular, which provides silent and immediate access to first responders and building security personnel.

Navigate360 has partnered with 911Cellular Technologies to provide public, private and healthcare industries with the most modern panic button solution on the market. Our panic button solution provides layers of protection so employees can feel safe and protected, with immediate access to first responders via the Public Safety Answering Point (PSAP).

911Cellular's technology has been independently tested by the National Institute of Standards and Technology (NIST). Panic button location accuracy can locate a caller to the floor and room number, even if they're on the move with additional mapping service.

Safety App Panic Button

Compatible with Android and iOS devices.

COMPUTER PANIC BUTTONS

Easy installation on Windows, Chromebooks and Mac desktop and tablet devices.

Easily initiate an alert to first responders or building security personnel from your computer keyboard or mobile device locked screen.

Effortless software installation can be updated at any time with no additional hardware required.

SMARTWATCH PANIC BUTTON SOFTWARE

Notify first responders while on-the-go with accurate location information.

Double-tap or voice-activated.

Streams audio/video from enabled devices directly to first responders.

WEARABLE PANIC BUTTONS

Immediate access to your security team and first responders.

Rechargeable batteries last up to 1,000 activations.

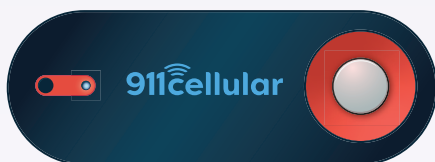

Connect to existing Wi-Fi with no supporting hardware required.

Remote check-ins allow you to see panic button status and remotely test any installed button at any time without having to physically test each button.

No Bluetooth beacons or radio-frequency identification tags needed, unlike badge-based panic buttons.

WALL-MOUNTED PANIC BUTTONS

Emergency help at the touch of a button.

Always ready to be activated.

Quick and easy installation.

Remotely obtain panic button status or test any installed button.

About Navigate360

Navigate360 empowers people, schools and communities to stay safe and thrive – physically, socially and emotionally.

THE INDUSTRY'S LEADER IN HOLISTIC SAFETY & WELLNESS SOLUTIONS

For 20 years, Navigate360 has been the most widely chosen safety partner in the United States, protecting more than 50,000 districts, schools, law enforcement agencies, businesses and houses of worship. We help communities nationwide mitigate and reduce acts of violence with solutions backed by research and developed by industry experts.

“

We have a lot of locations for one county. With 911Cellular, if there was an emergency, we could get someone there very quickly.
