

Comprehensive Layers of Modern Safety Protection

Achieve holistic building safety & security with silent panic button technology.

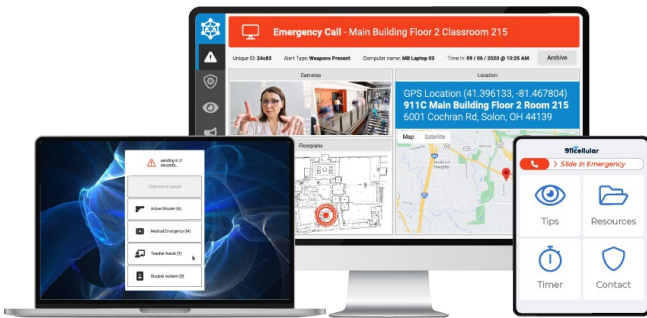

Prioritize employee safety with immediate access to first responders and building security personnel.

Compatible with Android, iOS, Fitbit, Apple Watch and Garmin devices.

Computer Panic Button

Discreet and easy activation from your workstation.

The 911Cellular safety app has been independently tested by the National Institute of Standards and Technology (NIST). Panic button location accuracy can locate a caller to the floor and room number, even if they're on the move with additional mapping service.

Easily initiate an alert to first responders from your computer keyboard or tablet.

Remote check-ins allow you to see panic button status and remotely test any installed button at any time without having to physically test each button.

Effortless software installation that can be updated at any time with no additional hardware required.

Navigate360

Building safer tomorrows.™

Smartwatch Panic Button

Notify building security personnel or first responders, regardless of where you are.

Double-tap or voice-activated.

Streams audio directly to first responders.

Provides location accuracy.

Time equals life, so provide quick and easy access to silent emergency panic buttons to enable immediate communication with first responders and security personnel.

For 20 years, Navigate360 has been the most widely chosen safety partner in the United States, protecting more than 50,000 schools and districts, law enforcement agencies, businesses and houses of worship. We help communities nationwide mitigate and reduce acts of violence with solutions backed by research and developed by industry experts.

Wearable & Wall-Mounted Panic Buttons

Emergency help at the touch of a button delivered through Wi-Fi network connection.

Always ready to be activated.

No Bluetooth or Radio Frequency Identification tags needed, unlike badge based panic buttons.

Quick and easy installation.

Battery lasts up to 1,000 activations.

Our partnership with 911Cellular, which was ranked #1 by a Florida DoE Selection Committee for their panic alert system technology, enables schools and businesses to provide added layers of critical protection to everyone in the building.

Let's build a holistic culture of safety together! Contact us today to receive more information about this newly integrated silent panic button technology.
